Foreword

Information presented in this volume was taken from the 1980 Annual Report/System Membership Applications submitted by public libraries in Texas.

The public library directory, which begins on page 1 of Section II, includes city and county libraries and their branches, listed in alphabetical order by city. The hours per week for those libraries with branches are a composite of hours for both the central library and branches. Following this directory is a statistical profile of libraries submitting reports, arranged by system, along with a county profile of library service. As in the past, most data items cover the last local fiscal year or reflect the status at the end of that year, except for the staffing information, which is as current as possible.

Following the statistical section is an index which includes names of Head Librarians and Branch Librarians, and the names of libraries and branches which do not begin with the name of the city in which they are located.

We would like to thank all the public librarians for their cooperation and efforts in completing the Annual Report/System Membership Application forms. Special thanks go to Millicent Huff, editor of *Texas Libraries*, who designed the formatting so that portions of this year's edition could be typeset. We are particularly grateful, too, to Joe Meyer, Robert Haddock, Dorothy Mikeska, and Donald Dickson of the Texas State Library, Data Processing Department, for the production of the statistical section of this directory. Haven Whatley Toothman of the TSL Library Development Division was responsible for collecting and verifying the Annual Report/System Membership Application forms, as well as for typing and coordinating the publication of this volume.

[1] These counties with populations served less than total county populations are the result of "spillover" from neighboring counties. That is, one (or more) library in the next county has a service population which extends over the county boundary.

[2] These counties with populations served greater than total county populations are the converse result of the phenomenon noted above. That is, one (or more) library serves residents who live in a neighboring county.

The librarian is Mrs. Beverly Darsey; they are open 20 hpw, 1-5 p.m. Tuesday through Friday, and 10 a.m. - 2 p.m. on Saturday (summer schedule the same).
